

**BETTER STEEL THROUGH
QUALITY & INNOVATION**

NITIN FORGINGS & STEEL INDUSTRIES

OUR MISSION

We aim to create sustainable growth and return on investment by improving human resources, environment, technology and product. We must keep going & never giving into the temptation to rest on our laurels, always giving emphasis on trust and ensuring customer delight to achieve greater goals.

"Great people management is not about managing people but it is about telling them to manage themselves into greatness."

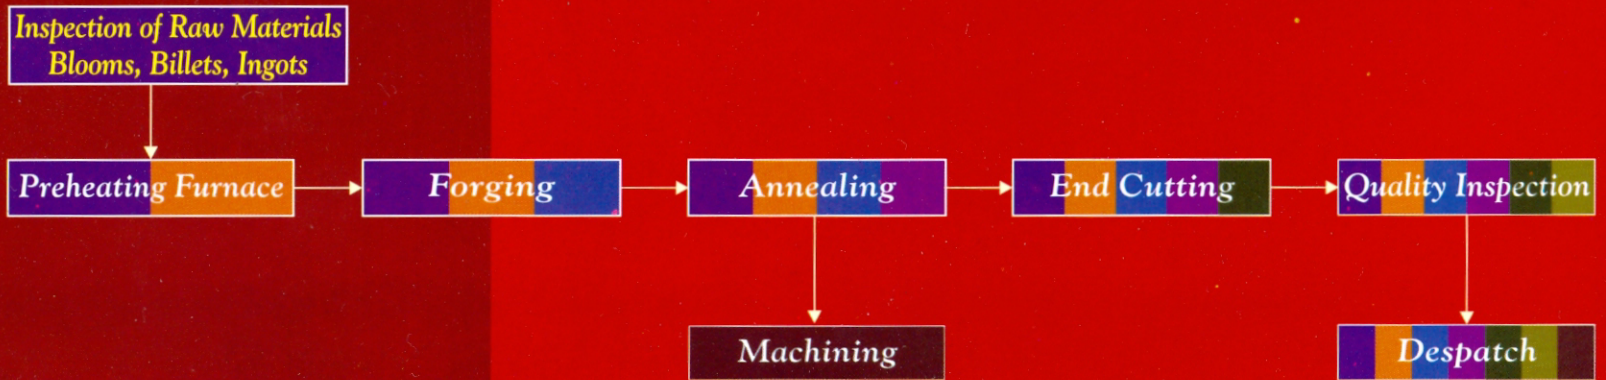

Any organisation's success depends on strength of human resources and very largely upon the quality and dedication of its work force. The greatest symbol of being different in this business is persuing excellence with integrity and showing grace and mercy towards co-workers and others. The success not only depends on the proper co-ordination and co-operation of its members but also on customers of its finished products.

Our proper approach to handling a customer is really a consultative sell, where we go out, understand the requirements of our customer and try to give the right product to them, working with all of our suppliers to find that right mix.

Nitin Forgings & Steel Industries is one such organisation which is running under an able and dynamic personality Shri B.S. Agarwal. He has a wide experience of over 25 years in the Alloy Steel Industry. A man who motivates his team, provides a sense of vision, clarifies organisational objectives and ensure that there subordinates are able to motivate those who work with them.

Thus, working towards a better tomorrow, we believe in laying a strong foundation. Our manpower is our back bone, on the strength of which we have set out to achieve greater heights.

PROCESS FLOW CHART :

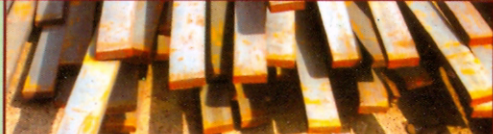

FORGE SHOP :

- ☞ 1000 Kgs. clear space open air pneumatic hammer - Anyang - China.
- ☞ 400 Kgs. clear space open air pneumatic hammer - Anyang - China.
- ☞ Oil fired furnace for pre heating.
- ☞ Annealing furnace of size 13' x 4'.
- ☞ Bandsaw cutting machines 6", 10", 12", 19" capacity.
- ☞ Hacksaw cutting machines 12" - 3 Nos., 16" capacity.
- ☞ 82 kva DG set for power backup.
- ☞ 5 mt. EOT crane with electric hoist - 2 nos.
- ☞ Jib cranes - 2 mt., 3 mt., 5 mt. each 2 nos.
- ☞ Dedicated subcontracters for proof machining.

OUR PRODUCT RANGE :

We manufacture user friendly products that completely meet the customers requirements. Our products are most economical, cost effective and of the highest quality.

TYPE	RANGE	SURFACE	GRADE	PRODUCTS
Round Bars (plain & step shafts)	Size (mm) 90 dia -320 dia Length Max-4000mm	Black Surface as forged	Alloy Steel Mild Steel	
Pinions, Discs	Size (mm) Max-680 dia Thickness Max-400mm	Black Surface as forged Machined	Alloy Steel Mild Steel	
Flats Bars	Size (mm) Width 80-400mm Thickenss 40-250mm Length Max-4000mm	Black Surface as forged	Alloy Steel Mild Steel	
Square Bars	Size (mm) 70mm-300mm Length Max-4000mm	Black Surface as forged	Alloy Steel Mild Steel	
Hex Bars	Size (mm) 70mm-250mm Length Max-4000mm	Black Surface as forged	Alloy Steel Mild Steel	

Alloy Steel : 35C8, 40C8, C45, EN8, EN9, EN19, EN24, EN31, EN41B, EN47, EN353, EN354, EN36C, 20mnCR5, SAE8620, HCHCR (D2 & D3), HDS (H11 & H13), OHNS

Mild Steel : C10, C15, C20, C25

PRODUCT ADVANTAGE :

- * Better surface quality & size uniformity of products.
- * Material are forged from high integrity billets/blooms with minimum centre segregation and perfect columnar structure.
- * Ensure best possible surface finish and best possible straightness.

CLIENTELE :

NFSI manufactures quality steel to cater the need for the following sectors :

- ◆ Cement, sugar, paper and power plants.
- ◆ Crane and material handling equipment manufacturers.
- ◆ Chemical, petrochemical and pharmaceutical plants.
- ◆ Steel rolling mills and heavy machinery manufacturers.
- ◆ Electronic and engineering industries.
- ◆ Turbines, couplings, valves, air curtains and pump manufacturers.
- ◆ Gear, sprockets, spm and hydraulic system manufacturers.
- ◆ Crushing, screening and pulverising equipment manufacturers.
- ◆ Rigs, hammers, bits, pistons and drilling equipment manufacturers.
- ◆ Dies, press tools, jigs and fixtures, moulds, precision components and conveyors manufacturers.
- ◆ Steam boilers, heat exchangers, economizers and pressure vessel manufacturers along with other big and small consumers from various industries.

SHAPES :

Rollers, Discs, Pinions, Shafts, Flats, Squares, Hexs,
Step Shafts, Blocks, Rings, Rounds and as per
customer's specification and drawing

Quality Policy

*Nitin Forgings & Steel Industries
shall constantly strive to
improve the quality of products it serves through
excellence in all facets of its activities.
We are committed to create quality products for all
our customers by continuously
improving our systems & processes through
innovation, involving
all our employees.*
